ADITYA KAMBLE

Java Full Stack Developer | Android & Web Development

+91 9699600638 | ak8806657127@gmail.com | LinkedIn Profile | GitHub Profile

PROFESSIONAL SUMMARY

Aspiring Java Full Stack Developer with hands-on experience in building scalable, user-focused web and Android applications. Proficient in Java, PHP, MySQL, and modern web technologies. Completed professional training in Java Full Stack Development at Kiran Academy, Pune, covering Core Java, Advanced Java, JDBC, Servlets, and JSP. Developed multiple production-style projects including a portfolio hosting platform and a student complaint portal. Won 1st place at Avishkar 2024 for Nexus Finder D1, an innovative Android device tracking application. Currently pursuing MCA at Savitribai Phule Pune University and seeking an entry-level software developer role to contribute to real-world solutions.

TECHNICAL SKILLS

Languages:	Java, Python, C, C++, JavaScript	**Web Technologies:**	HTML, CSS, PHP, AJAX
Frameworks:	Servlets, JSP, JDBC, Android SDK	**Databases:**	MySQL, SQLite, Firebase Realtime DB
Tools:	Git, GitHub, VS Code, IntelliJ IDEA	**Platforms:**	Windows, Linux
APIs / Cloud:	Google Maps API, Firebase	**Concepts:**	OOP, MVC, REST APIs, RBAC

PROJECTS

Portfolio Hosting Website
PHP | MySQL | XAMPP

- Developed a multi-user platform for hosting personal portfolios with user registration and login.
- Implemented ZIP file upload, extraction, and a file-explorer-style dashboard for easy file management.
- Integrated role-based access control (RBAC) to enforce secure data management across user accounts.
- Maintained full codebase on GitHub with version control best practices.

Student Complaint Portal
PHP | SQLite | JavaScript | AJAX

- Built a full-stack web application allowing students to submit and track lab/facility complaints in real time.
- Used AJAX-driven dynamic updates to eliminate page reloads and improve responsiveness.
- Implemented two-step verification for secure student authentication, reducing unauthorized access.
- Designed a clean, responsive UI ensuring accessibility across devices.

Nexus Finder D1 — Lost Device Tracker
Java | Firebase | Google Maps API

- Developed an Android app for real-time GPS tracking of lost devices with remote lock and data wipe features.
- Implemented SIM-change detection with automatic alerts and Wi-Fi enabling for sustained connectivity.
- Enabled multi-network communication (SMS + Internet) to ensure reliability under all network conditions.
- Anti-factory reset protection prevents bypass of the tracking system even after a device reset attempt.
- Awarded 1st Place at Avishkar 2024 — recognized for technical innovation and real-world impact.

CERTIFICATIONS & TRAINING

Java Full Stack Development
Kiran Academy, Pune (Karvenagar Branch)

- Completed training in Core Java, Advanced Java, JDBC, Servlets, and JSP.
- Built end-to-end full-stack applications integrating Java backend with HTML/CSS/JavaScript frontend.

- Gained hands-on experience with MySQL for database design, queries, and integration.

EDUCATION

Master of Computer Applications (MCA) *2025 – Present*
Anantrao Pawar College of Engineering & Research, Pune | Savitribai Phule Pune University (SPPU)

Bachelor of Computer Applications (BCA) *2022 – 2025*
Dayanand College of Commerce, Latur
CGPA: 8.67 / 10 | Relevant: Java Programming, Android Dev, Web Technologies, Database Management

HSC – Jijamata Junior College *2022 | 70%*

SSC – Chatrapati Shivaji Maharaj School *2020 | 69%*

ACHIEVEMENTS

1st Place – Avishkar Technical Competition 2024
Awarded first place for Nexus Finder D1 — selected from institution-wide entries for innovation and real-world impact.

CORE STRENGTHS

✓ Full Stack Web Development	✓ Problem Solving & Debugging	✓ API Integration
✓ Database Design & Management	✓ Real-time Application Development	✓ Version Control (Git/GitHub)
